- Minor in Science, Technology, Environment, & Public Policy (JMC)
One way of expanding your major options is to take a career assessment. While these assessments will not place you in a career or tell you what major or career is best for you, the results can guide you toward careers and majors you may wish to explore further!

Career Services at the Student Services Building offers several different career assessments that help you understand and talk about how your interests, personality, and values combine to make you who you are.

**CHOICES PLANNER - BRIDGES**
*(Access this system through our website under Resources+Tools tab/Career Resource Tools)*
- Online tool which allows you to assess and examine your interests, work values, and beliefs about your work skills and get immediate feedback about matching careers and majors.
- A wealth of information to search about occupations and related majors.
- Create a career goal plan and save it all in your own online portfolio.
- Although the entire system can be used independently, an appointment with a career advisor to discuss your results and how to use the information you’ve gathered, is recommended.

**STRONG INTEREST INVENTORY (SII)**
- This assessment is taken online and helps you identify and examine your interests.
- Helps you explore broad interests as well as specific areas of interest and offers a list of careers ranked by your similarity of interest to others of your gender for further exploration.
- Offers ideas on linking interests to majors and ways to develop interests and gain career related experience while in college.
- Requires an appointment with a career advisor. Please visit our website for appointment options.

**MYERS-BRIGGS TYPE INDICATOR (MBTI)**
- Specialized online assessment that can help you gain understanding about your personality style.
- An appreciation of your personality style can help you consider if a major or career might be a good fit.
- Helps you gain insight into your communication and interaction with others in the workplace.
- Requires an appointment with a career advisor. Please visit our website for appointment options.
